Specializes in rapid skill acquisition, problem-solving, responsive design principles, and teamwork. Aspires to cultivate a career within an organization whose values align with their professional goals.

TECNHICAL SKILLS

Programming Languages : Golang, JavaScript
Backend Development : Golang, Microservices Architecture, REST APIs, gRPC, Protocol Buffers (Proto), HTTP APIs
Frontend : React.js, Redux, Redux Toolkit, Chakra UI, Chart.js
Go Frameworks & Libraries : Gin / Fiber / Echo gRPC-Go Protocol Buffers
Databases & Caching: MongoDB, Redis, SQL (Basic)

EXPERIENCE

Motilal Oswal Financial Services Limited, *SDE-II* 04/2024 – Present | Mumbai
Working on **StratX**, an advanced algorithmic trading platform used by advisors and clients to manage automated strategies.
Responsibilities
- Developed core features of the **StratX trading platform** using **React and Golang**.
- Built and optimized **real-time data pipelines using NATS** for market updates and position tracking.
- Implemented **strategy management and portfolio tracking modules** for advisor and client workflows.
- Developed dashboards and trading interfaces for **live PnL, positions, order management, and strategy monitoring**.
- Worked on **real-time PnL calculations and position updates** for trading strategies.
- Implemented **high-performance frontend components using React, Redux Toolkit, and Chakra UI**.
- Integrated backend APIs for **order execution, strategy configuration, and portfolio analytics**.
- Contributed to improving system performance by optimizing **subscription handling and real-time event processing**.
- Collaborated closely with backend and trading teams to deliver **production-grade trading features**.

Tech Stack
Golang, React.js, Redux Toolkit, Chakra UI, NATS, MongoDB

Novotoc Infotech, *Software Developer* 06/2023 – 04/2024 | Mumbai
KEEV is a **no-code algorithmic trading platform** providing backtesting, optimization, forward testing, and automated live trading.
Responsibilities
- Developed and maintained frontend modules using **React, Redux, and Chakra UI**.
- Implemented **responsive trading dashboards and strategy configuration interfaces**.
- Built **stock analysis tools and visualization dashboards** for clients.
- Worked on **multi-broker platform deployments**, unifying different broker versions under a single theming system.
- Collaborated with backend teams to integrate **trading APIs and strategy execution workflows**.
- Implemented advanced UI components for **strategy building, analytics, and chart visualization**.

Tech Stack
React.js, Redux, Redux Toolkit, Redux Persist, Chakra UI, Golang, Chart.js

Masai School, *Full Stack Development Intern* 06/2022 – 03/2023
Full Stack Development Internship Jun 2022 – Mar 2023
- Learned and implemented **MERN stack applications**.
- Developed multiple **web applications from static websites to dynamic full-stack apps**.
- Worked in collaborative environments following modern development workflows.

Tech Stack
HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB

EDUCATION BACKGROUND

Full-Stack Web Development(Full-Time), *Masai School, Bangalore* 05/2022 – 03/2023 | Remote

Bachelor of Arts, *YCMOU, Nashik Maharashtra* 08/2019 – 05/2022

B.Tech (Instrumentation), *Government College of Engineering Jalgaon* 08/2015 – 06/2018
(Dropout)

Higher Secondary School, *Shri Saraswati Junior College Janephal* 08/2013 – 07/2015

CERTIFICATIONS

- Problem Solving (Basic)-HackerRank
- JavaScript(Basic)-HackerRank
- 3 Stars In Problem-Solving(HackerRank)

SOFT SKILL

- Communication
- Adaptability
- Remote-Collaboration
- Team work
- Problem-solving
